JAVELINA™

The Next Applied

A MODERN HEALTHCARE PAYER PLATFORM FOR REAL-TIME RESULTS

Future-proof your business with Javelina®

THE MOST MODERN, SCALABLE PAYER PLATFORM IN THE BUSINESS – BACKED BY DEEP INDUSTRY EXPERIENCE

The Javelina® payer platform for health benefits and reimbursement administration provides you with the flexibility required to support ongoing regulatory mandates and adapt to new value-based care management models. As new-generation technologies continue to transform the healthcare industry every day, the Mphasis Front2Back™ transformation approach enables you to transition your operation, led by your end customers' needs.

The Javelina® Platform as a Service (PaaS) environment, open source architecture, and business-driven configuration ensures optimal operations performance. Its proven ROI makes it one of the most affordable solutions today.

Stay ahead of the curve with Javelina®

Javelina® provides an integrated benefits management platform that is a complete solution to today's value-based care delivery demands. It is an advanced platform that can be configured to your business needs and can change as quickly as the market does. Its core benefits administration platform is future-ready and is backed by Mphasis' capabilities to enable your digital transformation.

Poised for Change

- Real-time data replication and aggregation capabilities

Interoperable,
Scalable,
Secure

- Functional modularity for componentized deployment
- Open architecture extended via REST API's
- Role-based security for flexible and secure operations

Client-Confirmed
ROI

- Enterprise functionality in SaaS deployment
- Lowest cost of ownership and reduced operational costs
- Native Electronic Data Interchange (EDI)

A payer platform that makes business sense

Making the right platform choice can be a delicate balancing act between financial investment and a system's functionality. In this environment, Javelina® is revolutionizing the payer market with its core tool set and rich range of capabilities. Eliminating the pitfalls of "a-la-carte" pricing, Javelina® is bundled with the core tools necessary to establish foundational integrity and efficiency. It combines real-time capabilities with clinical risk analytics to deliver comprehensive population health management in a single payer system. Javelina® enables ecosystem integration and real-time interaction with other entities and supports you with the Mphasis Front2Back™ approach to digital transformation. At all stages, it provides the best ROI—from the speed of implementation and reduced operational costs to complementing your resources with the broad capabilities of Mphasis.

👁️ Cost-optimized

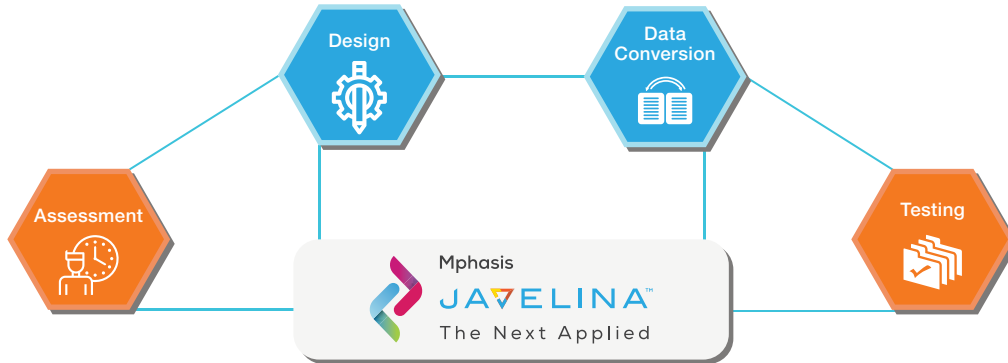

🕒 Speed to market

🔗 Ecosystem integration

🏗️ Cutting-edge technology

Safe, secure, swift implementation

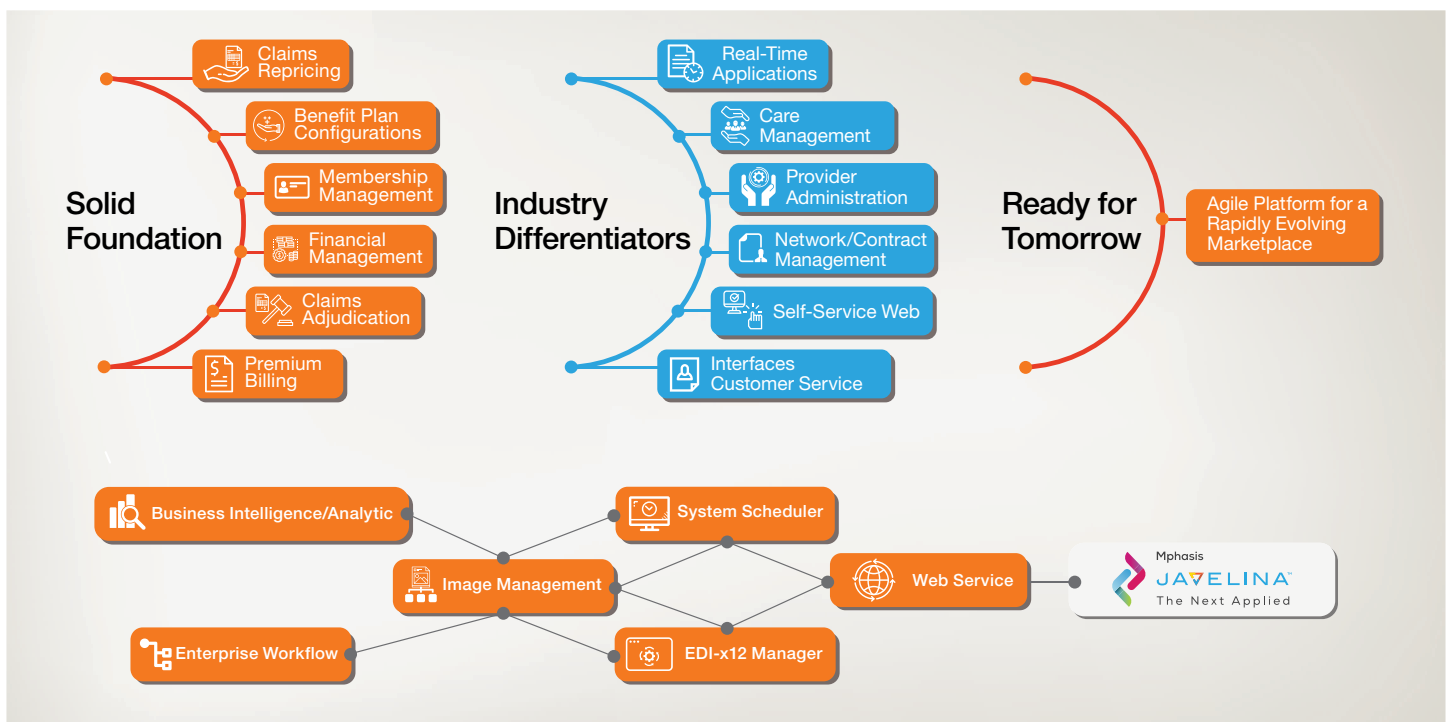

Transitioning to Javelina® is secure and seamless. From assessment and design through data conversion and testing, Javelina® implementation is highly collaborative. The team, proven processes and resources at Javelina® ensure regular data integrity validation and confirmation. Javelina® Professional Services enables you to quickly and efficiently implement the platform while continuing to optimize the platform for your future business needs. Our commitment to Javelina®, product expertise, depth of knowledge, and technical expertise help you to navigate and maximize all stages of operations.

Not only are we re-energized with the speed and efficiency of processing claims, the Javelina® technology has alleviated many concerns we had about meeting requirements of healthcare reform. As a result, we can focus on managing claims quickly and providing better service.

About Mphasis

Mphasis (BSE: 526299; NSE: MPHASIS) applies next-generation technology to help enterprises transform businesses globally. Customer centricity is foundational to Mphasis and is reflected in the Mphasis' Front2Back™ Transformation approach. Front2Back™ uses the exponential power of cloud and cognitive to provide hyper-personalized ($C = X2C^2 = 1$) digital experience to clients and their end customers. Mphasis' Service Transformation approach helps 'shrink the core' through the application of digital technologies across legacy environments within an enterprise, enabling businesses to stay ahead in a changing world. Mphasis' core reference architectures and tools, speed and innovation with domain expertise and specialization are key to building strong relationships with marquee clients.
